

## Welcome from Aman Kochar President and CEO

Thanks for stopping by to read the latest news from collectionHQ!

Let me start by welcoming our 37 new library customers who have joined or gone live with collectionHQ since the start of 2022.

Many of you, new and long serving partners of collectionHQ, have contacted me personally with positive feedback about the Diversity, Equity and Inclusion (DEI) Analysis tool. Our team has worked diligently to provide libraries with a service that can help you better meet the diverse needs of your community, and it is an honor to join you on this journey. Read more about the latest updates in [Product News](#).

Conferences are back! After a lengthy hiatus since the start of the Coronavirus pandemic, the collectionHQ and Baker & Taylor team is excited to be back in the booth at library conferences. Recently, we attended [PLA](#) in Portland, Oregon where many of you joined us for the

collectionHQ and ESP Forums. We are looking forward next to [ALIA](#) in Australia, [ALA](#) in Washington D.C., and the [IFLA WLIC](#) in Ireland to name a few.

One of my highlights from PLA was the positivity among libraries. The past two years have been a testing time for the library industry, with many changes introduced which continue to evolve. Still, librarians adapt and respond to the needs of their communities, reminding all of us every day that libraries are awesome!

Thank you for everything you do and please continue reading for more news from collectionHQ.

### Product News
